

ELLIS LEE

USER EXPERIENCE DESIGN & USER RESEARCH

SUMMARY

As a Cognitive Science major, specializing in Human Computer Interaction, I especially enjoy understanding user behavior and utilizing that information to design delightful experiences.

EXPERIENCE

UX/UI Designer

Usability and Information Architecture

Sept 2017 -Dec 2017

Created wireframes for a music app designed to ease the mental load of drivers.

Conducted interviews, generated comparative analyses, and developed the entire user flow of managing a playlist.

Research Assistant

Language and Cognition Lab

Feb 2017 - Dec 2017

Trained new research assistants on the equipment and protocol

Scheduling participants and ran participants on experiments

Administrative duties associated with the current research project

COLLEGE AMBASSADOR

UCSD Office of Admissions

Jan 2016-Present

Led informative and entertaining campus tours to diverse groups of prospective students and their families to promote UC San Diego and create enjoyable guest experiences.

Managed front desk operations by answering and triaging phone calls, writing emails, assisting walk-ins, entering data, and sending mail on behalf of the university.
